

AxeM & EILen

ERGONOMIC OPERATOR STOOLS – TECNO-GAZ

Ergonomics that works with you

AxeM

Medium-size saddle seat, more compact, ideal for small to medium-sized individuals, or those who prefer greater freedom of movement. Perfect for confined spaces or more dynamic use.

EILen

Large-size saddle seat, wider design, created to provide excellent support and comfort during long working sessions. Suitable for larger individuals and those who prefer a more enveloping seat.

THE EVOLUTION OF TRADITIONAL SEATING

Discover the well-being of a natural posture

The AxeM & EILen range from Tecno-Gaz includes two saddle-type operator seats designed to optimise posture, freedom of movement and stability during procedures. Two saddle sizes are available: **AxeM (standard, compact and dynamic)** and **EILen (wide, more enveloping and stable)**. Each model promotes a natural posture, reduces lower back fatigue, and improves movement precision.
